PROFESSIONAL EXPERIENCE

GOMAL THEMES

Project Manager | Progressed from WordPress Developer to Team Lead
April 2024 – Present

• Manage multiple web development teams and coordinate work across active projects.
• Meet clients to understand requirements, clarify scope and agree priorities.
• Break requirements into tasks, assign ownership and track progress using Trello, Asana and Jira.
• Use Slack for team coordination; provide clients with regular status updates and delivery progress.
• Monitor milestones, deadlines, quality and blockers; follow up to keep delivery on track.
